Traditional Style Louvered Roof

ADJUSTABLE LOUVERED PATIO COVERS

Pergola Style Louvered Roof

Two Styles to Choose From

Traditional Style Louvered Roof & Pergola Style Louvered Roof

Hurricane Rated

Louvered roof patio covers by American Louvered Roof Systems have been hurricane approved. (Up to 180 mph, i.e. a category 4 hurricane) They meet air pressure calculations for buildings in High Velocity Hurricane Zones in Miami-Dade County.

Snow Load Rated

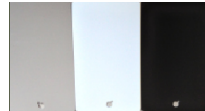

Our louvered roof patio covers have also been subjected to Michigan snow load engineering and have been approved for snow loads of up to 80 LBS per square foot.

3 Standard Color Options

Each of our patio covers have three standard color options to choose from, Taupe, White and Dark Bronze.

FULL RANGE OF SIZE OPTIONS

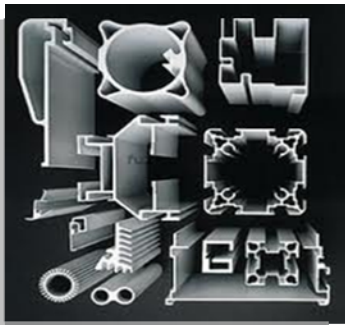

With a wide range of size options – up to 24' feet for Louvers and 10' to any length for continuous rafters; our louvered roof patio covers can fit almost any area imaginable, regardless of how large or small.

Optional Solar Power Unit

Completely Self-Contained with built-in Lithium Battery (one solar power unit needed for each motor)

100% Extruded Aluminum Electrostatically Powder Coated

All of our louvers, rafters, brackets and mounting systems are manufactured from extruded aluminum. This not only provides our components with an excellent surface finish, but also makes them extremely strong, durable and Rust-proof.

Once the extrusion process is complete, each part is then electrostatically powder coated in one of three colors to create an extremely hard and protective finish.

Does your deck or patio need an update? Create a beautiful and relaxing environment that you can enjoy for a lifetime. You can control your comfort with the simple touch of a button.

THE BENEFITS

- ✓ Increases Property Value
- ✓ Lowers Patio & Deck Temperatures on average of 15-20 degrees
- ✓ Protects Patio & Deck appliances & furniture
- ✓ Reduces home utility cost
- ✓ 98% Waterproof
