

The Gas Family

Champlain

Model 8304

The Champlain will add a touch of classic style to your room.

Features

Artfully balanced fire

The Champlain gas stove has been carefully designed to present a balanced, gently flickering fire on both low and high settings.

Convenient control

The Champlain 8304 maintains a standing pilot which will shut off after 7 days of inactivity. It can be run manually, with a standard or programmable thermostat, or with an optional remote control.

True efficiency

The Champlain includes a cast iron heat exchanger above the fire. Natural convective airflow moves air through the vents of the stove to warm your room.
